

# Annual Highlights

2014-2015

Number of Midterm Student Feedback sessions

Number of students offering feedback

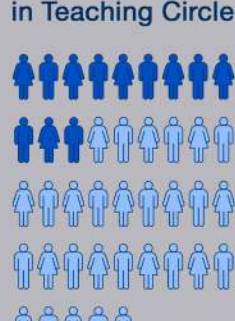

Combined activities from U-M and beyond

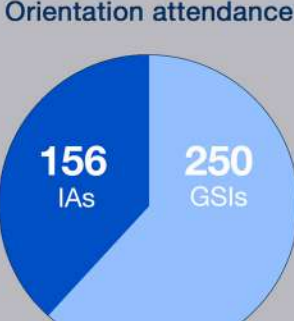

*The teaching evaluations I received at the end of the semester were excellent - they improved by 0.5 point compared to the midterm evaluation. To a large extent, this is thanks to the specific and immediate feedback I received from the CRLT-Engin consultant.*

Assistant Professor – Materials Science and Engineering

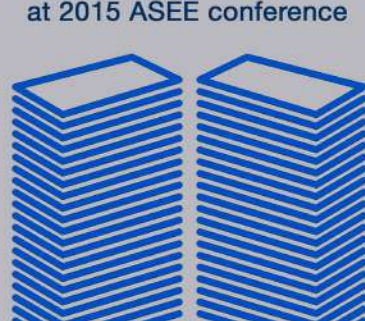

12 new faculty in Teaching Circle

Engineering Teaching Orientation attendance

Unique U-M coauthors at 2015 ASEE conference

*Yesterday, I decided to do a think-pair-share activity. I was completely blown away by the active buzz in the classroom when I told them to discuss with a neighbor. I'm sure the activity much better emphasized a point I wanted them to understand.*

Professor – Teaching Circle participant

## TEACHING & LEARNING ACTIVITIES

1,901 U-M participants in learning communities, poster fair, & other activities

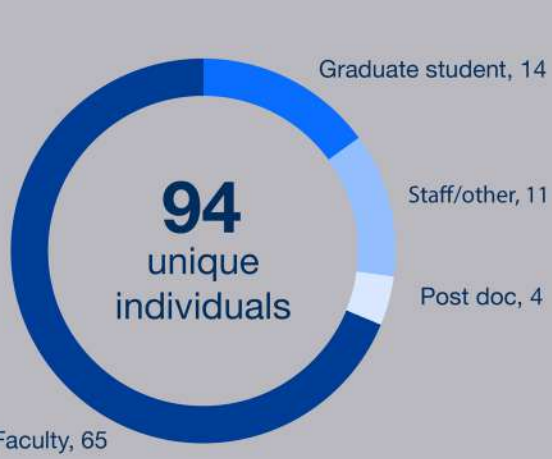

*CRLT-Engin is a partner in the success of us as teachers and our students as learners. My consultation set me up for first-time success, and I think this will aid in my development in the future as well.*

Assistant Professor – Biomedical Engineering

## ENGINEERING EDUCATION RESEARCH ACTIVITIES

235 U-M participants in teaching orientations, consultations, & other activities

*My presentation about my Investigating Student Learning project at the International Marine Design Conference was very well received - I was answering questions for 30 minutes after the session ended. In fact, it was the most enthusiastic audience response to a paper I have ever given!*

Assistant Professor – Naval Architecture and Marine Engineering
